To Whom It May Concern

Re: Application for Web Developer at LMIA Jobs

I am writing this letter to you to express my interest in the position of Web Developer in Calgary that is advertised on jobbank.gc.ca on December 9th, 2020. I am applying for this position with belief that my experience and expertise would prove valuable for the company.

In consideration of this opportunity, I bring to the table

- Analytical skills gained through Bachelor's degree in physics
- 2 years of industry experience in web development
- Ability to develop HTML templates from mockups that are both pixel-perfect and responsive
- Knowledge of building front-end software applications using tools including ReactJS, SASS, ES6 JavaScript and HTML5
- Passion for web development, and commitment to keep up with the latest technologies
- Legal authorization to work in Canada

My proudest example is Simple Publish. It uses ReactJS, Typescript and SCSS to create component-based pixel perfect clone of GitHub's create repository page. The project is available online, and it can be viewed here: https://github.com/hyungmogu/simple-publish.

Thank you so much for your consideration of my application. I am looking forward for an interview where I could further demonstrate my energy, passion and dedication for the role. With your opportunity, I will prove that I am the best employee the company could hire.

I hope to hear from you.

Sincerely,
Hyungmo Gu
